Trees are falling more than leaves  
Make it easy, blame it on me  
Pleasure digging, melts away  
Lizard chasing, hey I'm not insane

I like, I like, I like chasing them for fun  
I like, I like, I like breakin' in the gun

I do what I want, I do what I please  
There ain't a soul who'll stop me  
I take what I want, get whatever I need  
There ain't a soul who'll stop me

Tease my vision, soak it wet  
Explanations I'll never regret

'Cause I do what I want, I do what I please  
There ain't a soul who'll stop me  
I take what I want, get whatever I need  
There ain't a soul who'll stop me

Forest burning, smoking sky  
No one's caring and neither am I

I do what I want, I do what I please  
There ain't a soul who'll stop me  
I take what I want, get whatever I need  
There ain't a soul who'll stop me

I do what I want, I do what I please  
There ain't a soul who'll stop me  
I take what I want, get whatever I need  
There ain't a soul who'll stop me
