Well, she took my love into overdrive
Well, custom pink, now pay the price
When she's hot, well, damn she's hot
Electric love like Sandra Dee

You should have seen her dance

Come on and dance
Come on and dance

Fast and slick, well, she's cool and clean
In a pepsi sheen, she's a leather tease
When she's on top, well, she can't be stopped
Watch her scream, watch her suck you clean

You should have seen her dance

Come on and dance
Come on and dance

She took my love into overdrive
Well, custom pink, now pay the price
When she's hot, well, damn she's hot
Electric love like Sandra Dee

You should have seen her dance

Come on and dance
Come on and dance

Come on and dance
Come on and dance

Come on now
Come on and dance
Come on now
Come on and dance

Come on and dance
Come on and dance
