Found me golden angel
Gonna do me for a song
Love me till tomorrow
Who knows if she'll be gone

For once I tried to keep her
I guess that I was wrong
She just wants some money
To line her silver tongue

And when the animal
That lives inside you calls
When you cannot feed the hunger
Then the hammer falls

Gettin' hard
Hard to live with
Something's gotta give

Try to make a living
Overworked and underpaid
Slaving so one day
I can get away

Man looks at me for answers
Poor boy take the blame
Seein' it through the boss man's eyes
We all must look the same

And when the animal
That lives inside you calls
When you cannot feed the hunger
Then the hammer falls

Gettin' hard
Hard to live with
Something's gotta give
