(Sixx, Michael, Ashba, Frederiksen)

They opened up the door  
To my insanity  
They should of slammed it shut right then  
And thrown away the key

They stiched up my head  
From my lobotomy  
They should have never let me out  
I'm public enemy

I'm not okay (I'm not okay)  
The voices in my head always say (voices in my head)

I should be committed  
For being so twisted  
Cause everyone knows  
I'm just another psycho  
I went to the doctor  
It wasn't a shocker  
When he said I should know  
I'm just another psycho

Shoved into a hole  
Got covered up with dirt  
That's no way to treat someone  
Who's feeling's don't get hurt

I don't need a reason  
To hurt you just for fun  
I'll terrorize your perfect life  
Yeah you better run

I'm not okay (I'm not okay)  
The voices in my head always say (voices in my head)

I should be committed  
For being so twisted  
Cause everyone knows  
I'm just another psycho  
I went to the doctor

It wasn't a shocker  
When he said I should know  
I'm just another psycho

Hahahaha

I'm not okay (I'm not okay)  
I should be committed  
For being so twisted  
Cause everyone knows  
I'm just another psycho  
I went to the doctor  
It wasn't a shocker  
When he said I should know  
I'm just another psycho

I should be committed  
For being so twisted  
Cause everyone knows  
I'm just another psycho  
I went to the doctor  
It wasn't a shocker  
When he said I should know  
I'm just another psycho

But everybody's psycho hahahaha  
I'm just another psycho
