Some like violence, some like submission
Some use aggression
Some use a bullet in the head to be brave

Some like the evil, well, some need the power
Some bleed in vain
Some get a bullet in the head instead

Some got to go, some play the role
Some screaming in horror just for show
Some got no reason, some got no hope
Some like it loud

We like it loud, we like it loud
We like it loud, louder than hell, loud
Some like it, ooh, some like it
Ooh, some like it loud

Some got the honey, some hold the pistol
Some need no money
Some hang on the string of obscene

Some got to go, some play the role
Some screaming in horror just for show
Some got no reason, some got no hope
Some like it loud

We like it loud, we like it loud
We like it loud, louder than hell, loud
Some like it, ooh, some like it
Ooh, some like it loud

Loud, louder than hell
Loud, louder than hell
Loud, louder than hell
Loud, some like it, ooh, some like it
Ooh, some like it loud
