Honey, got something to tell you
You drive me outta my mind
Crazy situation, it ain't infatuation
Ain't gonna waste no more time
Back now, a new day's coming

Everything is plain to see
Baby, you're the one I'm missing
Do you want to be with me?
What a fool, I kept you hangin' on the line
I didn't care that your heart was doin' time

I know, love's got a hold on me
I know, love's got a hold on me

Honey, I've always been a drifter
Took a long time accepting the truth
Baby, you're the one I'm lickin'
No one treats me like you do
What a fool I kept you hangin' on the line
I didn't care that your heart was doin' time
