Put my mind at rest, do what you want to do  
Wouldn't be the first time that you ever did  
Given it away, do what you want to do  
Ya, ya

All the words you shit say what you want to say  
It could be the last time you ever will  
Kick in my face say what you want to say  
Ya, ya

You can tell by the words  
That this ain't no love song  
Kiss the dirt and walk away  
It's only one way

What's inside your head gets inside my skin  
Always doin' what you want to do  
Makes me want to say screw what you want to screw  
Ya, ya

You can tell by the words  
That this ain't no love song  
Kiss the dirt and walk away  
It's only one way

You can tell by the words  
That this ain't no love song  
Kiss the dirt and walk away  
It's only one way
