Romance her now, dance her now
And then show me how, show me how again, yeah

'Cause baby, when you whisper in my ear
Ooh, I like it, I like it
Tell me all the words I wanna hear
Ooh, I like it, I like it

You make me crawl to you
I say, you make me crawl to you

Well, I fall in not with any doubt
Till I give in 'cause I can't go without

You make me crawl to you again and again
Ya know, you make me crawl to you

Ahh, I gotta know when I'm gettin' on
With you, with you, oh yeah
Ahh, tell me what you want

Romance her now, dance her now
And then

'Cause baby, when I get you all alone
You like it, you like it

So show me how, show me how again

'Cause you make me crawl to you
Ya know, you make me crawl to you again and again
