Went to your house, baby
They said you weren't home
I asked if you could call me
Then waited by the phone

I don't like this feelin'
Think I'm slowly losin' my mind
Girl, I heard the rumors
You found somebody new

When I heard you had a new love
Broke my heart in two
Honey, let me hold you
Tell you what you mean to me
I don't wanna lose you
I'm waitin' here so patiently

You are all I need, girl
You are the world to me
You'll break my heart in two
If you found somebody new
You are all I need

My friends tell me I'm crazy
You're just a waste of time
But a love like ours is special
You're always on my mind

Do I wanna hear the answer to the question
That is burnin' in me, ooh?
Why can't I just hold you
And look into your eyes?

Wrap your arms around me
Make love to me tonight
Give me one more chance, girl
To show you what you mean to me
