Crash! good things aren't made to last  
I've been locked inside my past  
My fingertips remember what my eyes have missed  
I miss you baby

I won't come back as long as I live by the wish  
I miss you baby

Hurt, you fill the void I'm in  
Hurt, I end where you begin  
My fingertips remember what my eyes have missed  
I miss you baby

I won't come back as long as I live by the wish  
I miss you baby

My fingertips remember what my eyes have missed  
I miss you baby

And in my dreams my hopeless heart will give in  
I miss you baby

La la la la, la la la la la la la  
I miss you baby
