Love is a risky fuel to burn
if you don't know that you will learn
one spark can turn to flames
ignite the nitro of a burning heart
and you've only got yourself to blame
when it backfire in your face

I want you to know
I want you to say
but the words all come out wrong
tell them anyway

When my heart was high, ooh
it was always for the first time, ooh
this I can't deny
when my heart was high
it was always for the first time, ooh

Cry my baby I will always cry
cause you stole my heart no alibi
don't give it back cause it's with you that it belong
and baby I'm afraid to change
cause I have built my life around you
but the cracks begin to show

You wanted all I had to give
and I wish that I had more
more than I could give away

When my heart was high, ooh
it was always for the first time, ooh
this I can't deny
when my heart was high
it was always for the first time, ooh
