Daylight pulls me into shape  
A lucid dream, was I awake  
Common sense has made you keep  
But common sense won't help you sleep  
And I don't wanna know  
And I don't wanna go

Ride the wave it takes you places  
You've just gone  
We'll ride the wave, you sail further from home  
Wish I could find a place much deeper than this room  
Ride the wave cause there is too  
Much to lose

Night-time pulls me out of shape  
A lifetime waiting don't be late  
Sitting around has made me  
Feel irrelevant, my mind won't still  
And I don't wanna know  
And I don't wanna go

Ride the wave it takes you place  
You've just gone  
We'll ride the wave, you sail further from home  
Wish I could find a place much deeper than this room  
We'll ride the wave cause there is too much to lose

Ride the wave  
When you roll  
Is when I go  
Ride the wave  
When you roll  
Is when I go

Yeah, yeah, yeah...
