I dont know how I know it  
But I sure know its true  
I know that you can always find  
Some way to make it through  
You might not have the answers  
You could still be in shock  
It aint fair, but you wont care  
Long as youre doing the Eagle Rock  
I dont know how it figures  
But I know thats the way  
That everything is done Nround here  
Every night and day  
You may not have much money  
You might not own a clock  
But you wont care what time it is  
Long as youre doing the Eagle Rock  
Come on baby, let me see you dance  
I know we could make out real good  
Given half a chance  
I know I aint too pretty  
And I sure do drink a lot  
But you wont mind that, when you find that  
Youve been flying with the Eagle Rock
