Breaking the signal
So it's totally unreadable
Drinking the dregs
Eating the utterly inedible
We do what we do
All for you
All dressed up
Black hat and white cane
Slowly the circling the drain
Ready for the future
Ready for the world about to come

Shooting the sequel before the treatment's even
finished
Sanding numbers off the monobjects
As our slight returns diminish
We are what we are
Get in the goddamn car
Smiling faces flawlessly rehearsed
We are sleek and beautiful
We are cursed
Ready for the future
Ready for the world about to come
