(Ft Hanifah Walidah)

Taste of vengeance on my tongue  
Break the silence I've become  
Glamorous for everyone  
On my scene  
Can't deny that I deserve  
Praise and glory boys and girls  
Immortally I am centre stage  
Gracefully

Now I can live  
Now I can sing  
I can give  
Everything  
I can be free  
Tonight I am living for me

All nite madness  
All nite madness  
People  
And the sound  
And the faces  
All around

All nite madness  
All nite madness  
Out there on my own  
And I am living for the  
All nite madness

Consequently I've become  
Legendary like the sun  
I have stood the test of time  
Shining bright  
Unmistakable divine  
Paint my picture in your mind  
Empress I am here to last  
Gracefully

Now I can live

Now I can sing  
I can give  
Everything  
I can be free  
Tonight I am living for me

All nite madness  
All nite madness  
People  
And the sound  
And the faces  
All around

All nite madness  
All nite madness  
Out there on my own  
And I am living for the  
All nite madness

Now I can live  
Now I can sing  
All nite madness  
I can give  
Everything  
I can be free  
Tonight I am living for me

All nite madness  
All nite madness  
People  
And the sound  
And the faces  
All around

All nite madness  
All nite madness  
Out there on my own  
And I am living for the  
All nite madness
