I let loose reality one more time  
In the dark it's so easy to hide  
I driftaway and see you  
Coming into my life  
Bringing back this guiding light  
And all the grey is fading away

The sun sets down  
I am awaiting the night  
You make mee feel  
You make me feel alive  
I am able to forget the pain  
To move on such a different way  
But I am all alone  
Until you feed my dreams

I am too tired to grasp the light  
I will be left behind  
Strong but weak  
Only for your heart I seek  
It's all so senseless  
It's every time the same I fall  
To rise and fall again  
Pushed back into madness  
My thoughts they cause this pain  
I need your healing hand on me  
And all the grey is fading away

The sun sets down  
I am awaiting the night  
You make mee feel  
You make me feel alive  
I am able to forget the pain  
To move on such a different way  
But I am all alone  
Until you feed my dreams

And all the grey is fading away

The sun sets down  
I am awaiting the night  
You make mee feel

You make me feel alive  
I am able to forget the pain  
To move on such a different way  
But I am all alone  
Until you feed my dreams

The sun sets down  
I am awaiting the night  
You make mee feel  
You make me feel alive  
I am able to forget the pain  
I am able to forget the pain
