What a fantastic place to let myself go  
To torture the body, to torture the soul  
On and on into veiling visions  
On and on and I close my eyes  
I am the fallen one

Devastation, termination is what I see  
Backwards into isolation  
I kill myself, I am free  
Devastation, termination is what I see  
Backwards into isolation  
The pessimist it's me

In self pity I will drown forever  
It's the easiest way for me  
To continue life I count to zero  
Looking never forward, looking ever back

I cannot change it  
I cannot change my life

Here I'm standing, all on my own  
It is my will, my choice, why carry on  
Here I'm drowning, still on my own  
It is my will, my choice, why carry on

Devastation, termination is what I see  
Backwards into isolation  
I kill myself, I am free  
Devastation, termination is what I see  
Backwards into isolation  
The pessimist it's me

Backwards into isolation  
Devastation, termination  
Backwards into isolation  
The pessimist, it's me
