Hold on tight honey
She doesn't know how I feel
When her hands grab a hold of mine
A hold of me

When her eyes dance like that (dance like that)
It makes me wish
She could hold on to all I have (all I have)
When her eyes dance like that (dance like that)
It makes me wish
She could hold on to all I have (all I have)

Tomorrow will hold beauty
For this kid
So hold on tight
And never let go
Never let go

When her eyes dance like that (dance like that)
It makes me wish
She could hold on to all I have (all I have)
When her eyes dance like that (dance like that)
It makes me wish
She could hold on to all I have (all I have)

Alive and feeling
Like there could be nothing
She would ever change
She better not turn her gaze

When her eyes dance like that (dance like that)
It makes me wish
She could hold on to all I have (all I have)
When her eyes dance like that (dance like that)
It makes me wish
She could hold on to all I have (all I have)
When her eyes dance like that (dance like that)
It makes me wish
She could hold on to all I have (all I have)
