6 words to break u down
Your head is in the clouds
But I'm here to tell you
The one and only truth has risen
Send all your fears through me
So I can spit them out and bleed for you
So far from sleep wake up the living

We'll fight until the end
We're ready for a war
Better run for cover
Wooo ooh ooh...

Let's set the world on fire
Push down get up and fire
We are the chosen
You can't deny the last one standing

So what do you believe?
My faith your apathy
Your words are bullets
So load you gun and keep on shooting

We'll fight until the end
We're ready for a war
Better run for cover
Wooo ooh ooh...
Our future will begin
By standing on our own
Our blood becomes your water
Now (our blood)

The only way... the only war
The only choice is yours... now
No air... can't breathe
Black clouds of reign won't set you free
Possessing... never ending
Is that the way? (2xs)

We'll fight until the end
We're ready for a war

Better run for cover
Wooo ooh ooh...
Our future will begin
By standing on our own
Our blood becomes your water
Now (our blood)
We'll fight until the end
We're ready for a war
Better run for cover
Wooo ooh ooh...
Our future will begin
By standing on our own
Our blood becomes your water
Now (our blood)...
