### "I See A Star"

Visit "[I See A Star](#)" on MotoLyrics.com

The days and nights went by, but noone told me  
They can be fun too, if you only see  
There's such a lot of beauty you can live for  
You only need someone to open up your eyes  
And you will see things never seen before

I see a star, a brand new star  
It's right there, twinklin' in your eyes  
I see a face, a happy face  
It's like the mirror of my mind

I see a star, a brand new star  
It's right there, twinklin' in your eyes  
I see a face, a happy face  
It's like the mirror of my mind

You opened up my eyes for all the beauty  
The beauty we're inhaling every day  
It's been there all my life, so it's my duty  
I won't lose sight of it, the fire that you lit  
Will keep on burning 'til the end of time

I see a star, a brand new star  
It's right there, twinklin' in your eyes  
I see a face, a happy face  
It's like the mirror of my mind

I see a star, a brand new star  
It's right there, twinklin' in your eyes

Happiness, now is being shared by two  
I just started my life anew

I see a star, a brand new star  
It's right there, twinklin' in your eyes  
I see a face, a happy face  
It's like the mirror of my mind
