Focus (focus)
Commitment and trust give in to me
Friendship (friendship)
Forced through broken bones and tragedy
Can't fucking delay
This joke has gotten out of hand
Won't Pretend (won't pretend)
I don't feel the break, but I feel the bend

"Late night, snowfall
Get us to the hospital
Jamestown, 94 West,
And a Forty Hour train back to penn"

Leaves fall (Leaves fall)
If it means anything, it just means you're dead
Snow falls (snow falls)
It means my feet just flew over my head
Can't fucking believe
This joke has gotten out of hand
Won't Pretend (won't pretend)
I don't feel the break, but I feel the bend

"Late night, snowfall
Get us to the hospital
Jamestown, 94 West,
And a Forty Hour train back to penn"

There's no setback
That can set me back
I think the punch has worn me thin
And I'm weakening
The one thing that keeps me in the ring
Are the people that will never exist to me (to me)

If my mind's the weapon, my heart's the extra clip

Weather broken and torn im still fucking here
