In the summertime as the cool wind blows  
I first saw you pass me down the bottom of my road  
Knew you were the kinda girl that could go and break  
my  
Heart  
But we'll never know the end unless we jump in for the  
Start.  
But this I know  
I swear down that I'm in it for the long haul  
I'll always be there no matter what time you call  
All I know is that I've felt this for a long time  
And you know me, I'm too stubborn to change my mind

But people change heart with change of the seasons  
If you leave then I know you've got your reasons

Girl you know I love having you here  
You came into my life and made me change gear  
As long as you're around me I've got no fear  
As long as you're around me I've got no fear

Somewhere in this city there's a place where you and I  
Can spend all our time together just living our own  
Lives  
I don't ask for much 'cause I'm easily pleased  
Just a few rooms and then enough so we can eat  
And this I swear  
In the past I know I've given you some hard times  
I was a fool, I didn't even know my own mind  
You were lost and I never even saw the signs  
But how about this is where we draw the lone

I still know when I'm on to a good thing  
I still believe that there's hope of happy endings  
If it ain't broke then it doesn't need mending

Darlin', say what you're gonna say  
I won't turn and I won't walk away  
No way
