Listen to you for hours
I listen all day just to be to mean the right way
Sing your song in the shower
Cos you had a way to say what I could never say right
Right on
When I feel weak you make me feel strong
Make me feel strong
I won't say your name
Well you know who you are I'll never be the same
again, now, no way
I just wanna say, thank you for playing the way you play
You don't get played on the radio
That's not the game you play
But I don't care anyway
Heard your tape in the stereo
So I know every word, every note that every chord is
right
Right on
When I feel weak, you make me feel strong
Make me feel strong
Feel like nothing's wrong
I won't say your name
Well you know who you are, I'll never be the same
again now, no way
I just wanna say, thank you for playing the way you play
Takes you to know why I go and waste my time at a
rock n roll show
You let me know I'm not alone
You make me feel strong
Make feel strong
Feel like nothing's wrong
I won't say your name
Well you know who you are, I'll never be the same
again now
No way
I just wanna say
Thank you for playing the way you play
Thank you for playing the way you play (yeah)
Thank you for playing the way you play
