Life is life is short
life is life is short
life is life is short
life is life is short for me

no time no time to eat
no time no time to sleep
no time no time at all
just time just time to fuck

life is life is short
life is life is short
sex is a dance / sex is a dance
sex is good for me / is good for you too

i think you will like with me / no i won't
why don't try to let me be / no i won't
i think you will like with me / no i won't
why don't try to let me be / no i won't
