I can make a couple a calls
Let's see whatever way it falls
True it's seems a little bit late
Got a dream and it just can't wait

A million places
We're wanting to be
Where everybody's standing
And they're starting to scream

'Round the world we go
Get a laugh from the people that you know
'Round the world we go
Stick around 'til the evening starts to flow
'Round the world we go
Now it's time to let your head explode

I can see it coming down
I know that you can feel the sound
You and I were made to move
Just put the diamond into the groove

A million faces
We're hoping to see
Where everybody's standing
Staring back at me

'Round the world we go
Get a laugh from the people that you know
'Round the world we go
Stick around 'til the evening starts to flow
'Round the world we go
Now it's time to let your head explode

Everybody needs a little getting away
Shout it all together we've got something to say
Gather up anyone that you can find
Forget the masqueraders, leave 'em all behind

'Round the world we go
Get a laugh from the people that you know
'Round the world we go

Stick around 'til the evening starts to flow

'Round the world we go

Get laugh from the people that you know

'Round the world we go

Now it's time to let your head explode
