Do you know who I am?
Did you follow the change?
Am I part of your plan to stay the same?
I'm not that man

I've worn out my shoes
On sacred ground
My point of view is not face down
Like I see you

Viva la strange
Take a bite of Eden's apple
Against the grain
And away from the madness, madness

I don't wanna burn the life of my candle
Waiting around for a better day
I'll take a chance on fate's middle finger
And be someone I've never been

Don't wanna be another pretender
Not gonna smile to save my face
I wanna leave the thieves in the temple
And go somewhere out of this place
I won't get in my way, I won't get in my way
I won't get in my way this time, alright

Roll away the stone
Shift through the cracks
Shake all the bones of my back
My heart is my home

Viva la strange
Take a bite of Eden's apple
Beyond the frame
And out of the pretty picture, picture

I don't wanna burn the life of my candle
Waiting around for a better day
I'll take a chance on fate's middle finger
And be someone I've never been

Don't wanna be another pretender
Not gonna smile to save my face
I wanna leave the thieves in the temple
And go somewhere out of this place
I won't get in my way, I won't get in my way
I won't get in my way this time, oh

Yeah, yeah
I don't wanna burn the life of my candle
Waiting around for a better day
I'll take a chance on fates middle finger
And be someone I've never been

Don't wanna be another pretender
Not gonna smile to save my face
I wanna leave the thieves in the temple
And go somewhere out of this place
I won't get in my way, I won't get in my way
I won't get in my way
