I know what love is
I've seen that word before
L.O.V.Evil keeps on knockin' on my door
I've seen trouble walkin'
Dressed up in those suicide curves
I try to kick bad habit
And have the habit kick my ass to the curve

You can't run from nothing
It gets you where you live
All washed up
But you can't stop love from coming in
Like water over the bridge

I've seen some strange shoes
Underneath my heart shaped bed
I've seen the green monster
Wearing this ugly hat, really pretty

You can't run from nothing
It gets you where you live
All washed up
But you can't stop love from coming in
Like water over the bridge

It's coming to get you, baby
Let the dogs lose, girl

I have drown in the deepest
I've been down to my very last breath
All washed up
But you can't stop love from coming in
Like water over the bridge

Coming to get you, babe
It's like water
Over the bridge
It's like water
Water over the bridge
