sulking and bulking a half
sulking a laugh crash test
figure the mixtures digging up his last breath
grief leaf thief briefly turned chieftan
the tapwaters on the waters off the waters leaking

so this is blue
my frame reportedly spotted garden variety burners
and lost to normalcy
my terms the memoir obligation in the boodoir
crystalize impurities to zero on the

autograph dirty characters sponges hunches hurling
murder abundant lunches with the

city suppers punching (hurdling) tomorrow since I sit in
consequence merging brings to

bubble up along the edges of precious child fantasy
broken hi, my name is hazardous

tobaccanist im on the brink im purgin dirt and spit my
lung in the sink as for the

product well its drenched in a barren backward
wasteland of shimmering moral tension

and venturing the plaza pleasant i saw it all from pixie
dust to crepid pins and

voodoo dolls and 99 dreams later the shooting gallery
wall its like not a wave crash

similar to last or next heckle me not already doctored
by regrets gray rain

beligerant fragments bomb acid ushering the pixels till
the image burned classic

bliss in a barrel and motivation in a basket ima cast it
out to sea and wait for my

comma to grasp it I left my crutch over the rainbow with
my riches and I know the rat

race of the bad taste once his grimace cringes an
iron butterfly will float if given

good condition but im still fishing the same worm from
the same faulty position

prosperity

im tryin to walk alone and miss the bliss inside the
accidental meeting of the pencil

and the ceiling and the censures started meeting
breathing at a rapid calibur at

that a line so gray will last forever more dusting off the
dreams to be an autopilot

still a silent understudy funny how the opposite will
throttle and the different

stroke and model to the prison is inaccurate portrayal
of an adequate betrayal of a

wish gonna wanna coulda shoulda woulda did it isnt it
amusing choosing and a plan of

cybernating waiting till the mating means of motivation
took a fine position dishing
only after every little kiddy has performed I just wanna

wanna I just wanna I just wanna be a general he said I
just wanna sleep yo what a

long capitol crust gallop my charriot burning and
aweful enigma sprung by the sling

of david appears gutterbug batch prior to hatch
dismiss it as a soul condensing

excuse to decorate maps with thumb tacks this gold
star product pushing hate boogie

themes enter the smoke screen blazing saddle
remnants alive analyze pensive connect

all picket fences like chain gangs linked digging
trenches to candy land image

factory sold ah I wanna be an astronaut I got the merits
and heart and I bought a

starship with hard earned money from one hour selling
dreams to dummies when they

raise the lights ja ja ja jesus christ ive never seen so
many goblins in my life (oh

my lord) vibrate through the fog and then some
dragging bent circuits on a short

leash like organ grinder primates dancing for bread
crumbs well did you touch that

slugger banging on the table with an old tin cup thin
luck I can raise the dead when

the shark settlers fled the place brung out they bed of
nails to spread the sails

racing for milk and bread but I got big big plans i ride a
big boat with a big ol

motor and I aint really that big on helping you turn your
leaf over (lets sing) bring

out your dead a quarter pile sky high (lets see) what if
your miserable saw the plant

fly by my name is try to deny magnificent doom craft
my records so built and ima show

you why this fuckin globe tilts

take me where the air is clear i dont really know where
