Take it from the top with nothin' but the hot shit  
I told 'em we got shit and it smells  
Mario, what's the verdict?  
Hey yo, Mr. Cheeks, I know ya heard it  
The way we move, spaz out on who?  
Boo c'mon, that's how we do it  
This one's for you, c'mon

I did it like the Elements and wrote a song for ya  
No kiddin', where my feelin' gettin' strong for ya  
And if I really had a chance I'ma pick you  
You got class and finesse, you dress sick too  
I'ma holla at you every time ya pass by  
And if I don't get you now this ain't the last try  
You play hard to get, I like steppin' up ma

Life ain't over yet, yeah, we both got enough time  
And yousa dime, so take this where ya go  
Anywhere you at you'll always hear the call  
In ya ear, in ya heart, until I gets through  
And that's my word, I'm not stoppin' till I get you  
I knew your pretty ass for years but don't know ya,  
know ya  
We get Manola and I feel like I got some things to show  
ya  
I've done traveled through the world rolled out at clubs  
And coughed hurl got weed, now I need me a girl

I've got a crush on you, my baby  
So let's put a rush on us, sweet lady  
Maybe we can share our love with things we having  
lately  
'Cause I got a crush on you, my baby

You come back, I'ma keep this Mo' on show for ya  
Imagine if you felt the same way I feel for ya  
Yeah, you see, that would be something  
This thing we can have together but you be frontin'  
[Incomprehensible] take your time though, I don't  
really mind  
In due time, I'ma make your pretty ass mine  
So keep doin' what you doin' till you ready for a

Big nigga like me 'cause I'm ready for ya

Yeah, holla back shorty I'm waitin'  
Ready and willing, anticipatin'  
Whenever you call I'll be there in a double  
If you need me for love or you in some trouble  
It don't matter what it is, I'm there  
Baby girl, open up, listen I'm here  
Tell me if there's anything I could bring for ya  
Chicken wing though a nigga got a thing for ya

I've got a crush on you, my baby  
So let's put a rush on us, sweet lady  
Maybe we can share our love with things we having  
lately  
'Cause I got a crush on you, my baby

Listen, last but not least before I go  
There's something else that you should know, yo  
I'm your number one fan when I add you to my plans  
I mean when your brain lands  
Delicate like a flower, I'ma love you with all my power  
Think about you every minute of the hour  
All I need is a number and a chance  
Save me the last dance

I've got a crush on you, my baby  
So let's put a rush on us, sweet lady  
Maybe we can share our love with things we having  
lately  
'Cause I got a crush on you, my baby

I got a crush on you, oh yes I do  
I got a crush on you, my baby  
Baby, baby, baby, baby

I've got a crush on you, my baby  
So let's put a rush on us, sweet lady  
Maybe we can share our love with things we having  
lately  
'Cause I got a crush on you, my baby

Baby we can hang out later on  
I can sing this song
