Have you ever felt the touch of love? Candle lights beaming in bubble baths while you're making love waiting all day so you can see her give her a kiss and hug making my pay out in these streets because I aint a scrub she knows I'm a criminal but she aint trippin cuz she loves a thug and it's a trip when she sees me she begs I'm never leaving trying to tease me ready to please me and it's easy for me to do the things that I do I wouldn't trade for the world me being with you so let me explain some of the thoughts that I have in my brain it's like sometimes I really feel like I might just go insane catching these planes doing shows leaves me mentally drank that's why you always see me puffing on this cloud of this j but anyways I need a girl that I could keep by my side phenomenon all but any time she's still down to ride and if I'm caught up by the law she will write and send my calls and that's the reason that you see her with me even through it all
