CHORUS

I know you want a gangsta I know you need a thug
Someone that's always by your side that you can kiss
and hug
I'll always be there whether times are bad or times are
ruff
Come put your lips on mine come get some of this
criminal love
I know you want a soldier I know you need a thug
Someone that's always by your side that you can kiss
and hug
I will always be there whether times are bad or times
are ruff
Come put your arms around me and get some of this
criminal love

Girl come and get some of this criminal love I've been
missing you for a while
Been waitin for a hug and I've been feelin and feelin
just waitin for a kiss and
While we're at it just let me put these diamonds on your
wrist Now baby girl
You know I love you and that's with my soul you bring
some warmth into my
Heart beat cus these streets are cold and when I'm
tourin and travelin all
Around the world I always come home to my one and
only baby girl it's
Straight love and thug passion a bond that's
everlasting tryin to put us in a
Mansion with this rap shit they touch away from home a
lot trying to make it
On this journey all the way to the top and for always
stayin by my side I love
You for that never wanted me to leave patiently waitin
till I'm back too much
Love to express just on one track just know I love you till
I die and that's a
Fact baby girl

CHORUS

And when I get home you always show this criminal
love and when I was
Locked down you always sent me letters with with love
and when I was stuck
On stupid it's like I got shot by cupid I don't know what it
was but it was just
Something that you did or should I say that you do you
say I love you me too
And baby girl until I die it's just me and you and that's a
promise to be honest
Youve been one of the strongest always by my side
and down to ride when
Troubles upon us and I know sometimes in life I leave
you crossed and
Stressed always work never rest and always cleanin up
my mess the drama
Never dies sometimes it spreads and multiplies but still
no matter what
Against all odds we rise uh huh and lie together cry
together I swear to god I
Hope we fuckin die together they say that youngsters
don't make it but we've
Been makin it for years always making it work through
all the drama and
Tears and that's a fact

CHORUS

Remember the times I used to call when I was away in
placement couldnt wait
Till I seen you but still I had to stay patient then I came
home and took what
Was rightfully mine and I was feelin for your love I
really couldnt waste no
Time but still we had our problems still had our ups and
downs and I was still
Catching cases I couldnt put away the pounds another
days another dollar
Was the way I moved around to this day it's still the
same except the hustle is
Legal now and I'm never around always pursuing my
dreams settin my goals
High so we could enjoy life's finer things diamond pen
and tennis bracelets
Full of ice and precious things and I'm proud to say I
love you ook what hard
Work brings and fuck you a million miles just to see
those lips smile
