Gangster Love...

That's the way I wanna love you

You know I wanna give you my gangster love

You know it's the way I wanna love you

You know I wanna give you my gangster love

I'm telling you baby girl I never ever felt like this

The touch you give, the way you move, the way you
seem to lick those lips

I like the way you love me girl on the real I do we
making it moves and

Making it love I making it this one just for you

I got a fetish to get it taking trips out to venus

Walks in the sunset you know I gotta get it

I'm a menace yeah criminal that's making it moves I
live the life I don't

Think twice like criminal gots nothing to lose I stay g'd
up but there's a

Price to pay for the things I've done in the pass I just my

Today and in the pass I gotta say youve always had my
back cold days filled

With drama girl I love you for that I have so many
reasons to love you for

All seasons when I'm away from home girl you keep a
