I still hear you,  
I still see you  
When I close my eyes  
I could still feel you  
And I still want you,  
Loveâ€¦ never dies  
Loveâ€¦ Loveâ€¦ Loveâ€¦ never dies  
Loveâ€¦ Loveâ€¦ Loveâ€¦ never dies

We must have sat upon an old bench  
For ten long summers  
Girls and football, and it was green and birds and  
alcohol  
I won't forget the night that  
We just couldn't make you listen  
You thought you were always right  
But you were so, so wrong you were so headstrong,  
and now you're gone  
But I still hear you  
I still feel you  
When I close my eyes,  
I still need you  
And I still want you,  
You see love never dies  
Loveâ€¦ loveâ€¦ love â€¦ never dies  
[â€¦]  
Abandoned by the [?]  
Because we were throwing rocks and climbing trees  
now it's pushing rocks and transfer fees

Memories are playing  
Like music in the distance,  
Why did you leave the party so, so soon  
You should be here with me when I play that tune  
I still hear you  
I still see you when I close my eyes  
Loveâ€¦ never dies  
Loveâ€¦ never dies  
Loveâ€¦ loveâ€¦loveâ€¦ never dies  
Loveâ€¦ loveâ€¦ loveâ€¦ never dies
