[Mr Hudson]

Chorus:

And I feel like taking off

Let me be your supernova

Before you make the biggest mistake of your life

Just give me the chance to get it right

Verse 1:

They got it all

They've got all the things I thought I wanted

But I can't fall

To fake anymore

To live this facade and smile as the warm champagne  
pours

Out on the lawn we'll pretend we're having tonnes of  
fun in this world where we don't belong

Some bloke all alone

Is she thinking of me

Did she forget what we once had

Chorus:

And I feel like taking off

Let me be your supernova

Before you make the biggest mistake of your life

Just give me the chance to get it right get it right

[Kanye West]

Verse 2:

Oh they got it all you can see they got it all

They got the cars the boat and the beautiful house by  
the shore

And you know there's more

But I can't take another minute of y'all

He wants his kids and the dog

He wants his breakfast in bed

He's got his trust fund saved

Not a worry in his head

He's not you or me

I wanna break up the scene and see you running back  
to me

Chorus:

Coz I feel like taking off

Let me be your supernova

Before you make the biggest mistake of your life

Just give me a chance to get it right get it right

Yeah I feel like taking off  
Let me be your supernova tonight  
Before you make the biggest mistake of your life  
Just give me a chance to get it right get it right
