Insight [Mr Lif] {T-Ruckus

Its finished!

Its finally tuned up

Technical tweezes have

Tightened the loose nuts

[Now we can remove cuts as soon as they move up]

{Ruck's in the back with the ax for the cuts

Removing their bones to build thrones in the dungeon

Hungry from war Dead bodies get bludgeoned

Gun em!

[Examine the Pulse Cannon

The result of diligent planning

Serving the area site]

Now scanning four hundred soldiers

Approaching the landing

{Their family's abandoned,

They're on a fool's quest

Organs liquify from a blast in the chest

This hardly a test for my

Power cosmic bomb shit

Trauma an absence of logic

It's what they displayed

Motherfuckers fillet

And the blood of ten men

On the end of my blade

They try to invade

[We slight from their raid]

{An aura of death

[From the suckers we sprayed]

(Chorus)(All Three)

Ready, Set

Aim, Fire!

Burn, Turn

Salute, March

Charge, Launch

Tally, Pull

Devastating Energy

[Behold]

(2X)

Feel the fluctuating blast of  
Concentrated energy  
A deadly dose of shock churn through the enemy

[Potentially]

Paralyzing

[Damages]

Resonance

[The effects are evident]

{I terrorize infinitely

Exert myself minimally

Certain death is the penalty

Revive 'em

[Clear]

We got a pulse here

{Ready on the left

[I'll prick through his right ear]

Now give him his nightmare

[Terror]

{Got him!

To be sure that I stop him

I chop the ??corpus collosum??

[The enemy claims]

{Their power was awesome

Toss 'em in the moat

{[Their body float]

[They're panicking 'cause their is no hope]

{Po's beam reflecting off my [Chainmail coat]

The sergeant is done

Slam the commander

{Body count taken we're burn downin' banner

[They didn't understand the incredible force]

{[Knights Of The Round Table]

[They battled and lost]

(Chorus)

{\*Statik Selectah scratches\*

"Bodies may have been hurtled by the blast"

"When the building collapsed"

"Damage" "Casualties"

"Fire disaster" (sound of a building collapsing)
