Insight [Mr Lif] {T-Ruckus

Its finished!  
Its finally tuned up  
Technical tweezes have  
Tightened the loose nuts  
[Now we can remove cuts as soon as they move up]  
{Ruck's in the back with the ax for the cuts  
Removing their bones to build thrones in the dungeon  
Hungry from war Dead bodies get bludgeoned  
Gun em!  
[Examine the Pulse Cannon  
The result of diligent planning  
Serving the area site]  
Now scanning four hundred soldiers  
Approaching the landing  
{Their family's abandoned,  
They're on a fool's quest  
Organs liquify from a blast in the chest  
This hardly a test for my  
Power cosmic bomb shit  
Trauma an absence of logic  
It's what they displayed  
Motherfuckers fillet  
And the blood of ten men  
On the end of my blade  
They try to invade  
[We slight from their raid]  
{An aura of death  
[From the suckers we sprayed]

(Chorus)(All Three)

Ready, Set  
Aim, Fire!  
Burn, Turn  
Salute, March  
Charge, Launch  
Tally, Pull  
Devastating Energy

[Behold]  
(2X)

Feel the fluctuating blast of  
Concentrated energy  
A deadly dose of shock churn through the enemy

[Potentially]  
Paralyzing  
[Damages]  
Resonance  
[The effects are evident]  
{I terrorize infinitely  
Exert myself minimally  
Certain death is the penalty  
Revive 'em  
[Clear]  
We got a pulse here  
{Ready on the left  
[I'll prick through his right ear]  
Now give him his nightmare  
[Terror]  
{Got him!  
To be sure that I stop him  
I chop the ??corpus collosum??  
[The enemy claims]  
{Their power was awesome  
Toss 'em in the moat  
{[Their body float]  
[They're panicking 'cause their is no hope]  
{Po's beam reflecting off my [Chainmail coat]  
The sergeant is done  
Slam the commander  
{Body count taken we're burn downin' banner  
[They didn't understand the incredible force]  
{[Knights Of The Round Table]  
[They battled and lost]

(Chorus)

{\*Statik Selectah scratches\*  
"Bodies may have been hurtled by the blast"  
"When the building collapsed"  
"Damage" "Casualties"  
"Fire disaster" (sound of a building collapsing)
