(Chorus:)

When I'm drivin' my speed demon machine
Flyin', three digits, man
Nothin' you've ever seen
Cam and crankshaft turning
Smell the engine burnin'
When the pavement curls
I'm burnin' rubber all over the whole world
The whole world, yeah, the whole world
Red and blue lights flashin' behind me
Across the seven seas
They will never find me

I took a wrong turn in Tokyo, Tokyo
When the pavement curls
I'm burnin' rubber all over the whole world
The whole world, yeah, the whole world

(Chorus)

The whole world
The whole world, the whole world
The whole world, the whole world
The whole world, world, world, world
World, world, world, world, world, world
