My vagabond girl  
She likes to dig through trash  
She reminds me of my dear Nana  
I'm afraid, I'm afraid that it turns me on  
(Chorus:)  
When I'm drivin' my speed demon machine  
Flyin', three digits, man  
Nothin' you've ever seen  
Cam and crankshaft turning  
Smell the engine burnin'  
When the pavement curls  
I'm burnin' rubber all over the whole world  
The whole world, yeah, the whole world  
Red and blue lights flashin' behind me  
Across the seven seas  
They will never find me  
I took a wrong turn in Tokyo, Tokyo  
When the pavement curls  
I'm burnin' rubber all over the whole world  
The whole world, yeah, the whole world  
(Chorus)  
The whole world  
The whole world, the whole world  
The whole world, the whole world  
The whole world, world, world, world  
World, world, world, world, world, world, world
