Sometimes I roam the night, I come home in the
morning light
I guess sometimes I get carried away
You know me really good, I don't do what you think I
should
But somehow you know it's gonna be okay

I get lost sometimes, but you find me, I get lost
sometimes (repeats 4x)

She wakes up to the telephone, come and drive your
boyfriend home
He gave us your number, he's feeling no pain
The little girl she understands, she loves the boy inside
the man
Just hurry back to mama, back to mama she say

I get lost sometimes, but you find me, I get lost
sometimes (repeats 4x)

She got magic - I know it
She got magic - I know it

I get lost sometimes (I get lost sometimes)
I get lost sometimes (I get lost sometimes)
I get lost some, I get lost some, I get lost some - I get
lost sometimes

I get lost sometimes, but you find me, I get lost
sometimes (repeats out)
