(Chorus:)

Gotta get loaded tonight
Don't got a drinkin' problem
She don't drink with me no more
Nobody drinks with me no more
Shouldn't have to think twice
Crack the seal and pass it over
Wish you would drift away with me
Nobody drifts away with me, yeah
Throw you in the air like my favorite ball
Lose you in the sun

Walking down a dirt road
With thorns in our feet, yeah

(Chorus)

Hangin' from the ceiling
Oh my favorite chandelier
I will admire you from a distance baby
Admire you from a distance
Drop down on my head
It will spill all over
I will sink into the ground, yeah
Sink into the ground
