It's rainin' again and I'm stuck in my house
Guess I'll wait and watch it bring me down
Kinda cool to see cars crash, watch'um float away
I like the sound they make when they hit

(Chorus:)

Rain can sure bring you down
Rain can sure bring you down
Rain can sure bring you down
I would hate to live too far north
We can run without the sun
Through the gutters and the rain

If it ain't sunny it's a catastrophe
If it's not a mud slide it's a flood
Hangin' out watchin' leaks from the ceiling
Listening to the sun bleach spoiled news

(Chorus)

We'll take a spin, through parking lots
We'll make it slide round and round
Yeah we'll run, without the sun
Through the gutters and the rain
