(Chorus:)

How many times did you see love happen
How many times did you see love go down the drain
Blank little faces standin' high, high
Tiny little faces shining so bright, yeah so bright
Don't look now but the sun's coming up
Reached out to touch it, push it down with my thumb
Looked like I burned myself from the silhouette in the
sky

Nothing I could do but sit down and sigh
Sand in the sky, how far and how wide
Sand in the sky, yeah I wonder, I wonder how high

(Chorus)

Sand in the sky, how far and how wide
Sand in the sky, yeah I wonder, I wonder how high
Yeah, how high
