So sorry, it got out of hand
Sometimes it happens, You understand
The prisoners broke free, inside of them was our
experiment
Like LSD to go public it was never meant
Now we must, immediately close the file
All accusations, the usual way, we must deny
The shadow minds, gathered around the Pentagon
They always fight, a war, on our planet grand
Angel of death has come this way & to stay
Using his forces, & its resources, to spread the decay
The knowledge of the facts, are kept in the dark
A disease You can't see, still it's in Your body & heart
Panic buttons are pushed around the world
There's no solution, still they pretend like they never
heard
There is no safe sex & condoms won't save You
Tell me brothers & sisters, what are You going to do
Now the world is entering a sad state
We see no difference between true love & hate
Angel of death has come this way & to stay
Using his forces, & its resources, to spread the decay
Children of love arise
Now's the time to use all understanding
Children of God arise
Now You've got to move faster than lightning
To help these people out, all minds are set
We pay no attention to those who haven't caught it yet
This is what really makes me ill
To prevent it to go further, it seems to be no will
There's only one way to go right now
You don't like it but listen anyhow
Give those people a country, help them build it well
Work this out or we will face global hell
Angel of death has come this way & to stay
Using his forces, & its resources, to spread the decay
