There's somethin special about  
(You, you, you)  
That makes me come and be with  
(You, you) (baby)  
Nobody in this world compares to  
(You, you, you)  
I wanna tell you somethin baby  
Come 1, come 2, come be my (baby)  
There's somethin special about  
(You, you, you)  
That makes me come and be with  
(You, you) (baby)  
Nobody in this world compares to  
(You, you, you)  
I wanna tell you somethin baby  
Come 1, come 2, come be my (baby)

I been checkin you out for a long time  
I know I had to be with you when you walked by  
Love the way your hips move from side to side  
Do you want it from the 619  
Were you livin in the 909  
With the behind, lookin so fine  
Ready to bump and grind  
You dont know me  
But I wanna know you  
Let me get to know you  
and then later maybe I can roll thru  
And you know I got the VIP status  
And you know you really really wanna have this  
You're gonna love it when you see the whole package  
Its automatic  
Baby we can make it happen  
I can give you the keys to fullfill your dreams  
Make life easier than what it seems  
With them luxurious things  
Pearls and diamond rings

There's somethin special about  
(You, you, you)  
That makes me come and be with  
(You, you) (baby)

Nobody in this world compares to  
(You, you, you)

Baby let me judge your whole lifestyle  
Let me show you how its really goin down  
You're my queen, my wing, my everything  
Sun and rain  
For you I'd do anything  
Come a little closer  
Let me hold ya  
Show you that affection that you've only been told of  
I'll make you feel like a woman should  
Go ahead and lay your head on my shoulder when  
everything aint going good  
I know your friends are tellin you to stay away  
You heard about the rumors and how I play  
But they're just sayin that to take your place  
But dont worry because you cant be replaced  
Baby you got what I want  
C'mon let's get it started  
I've been searchin for a girl like you  
And I'd never dream of leaving you broken hearted
