"American Beauty"

Visit "[American Beauty](#)" on MotoLyrics.com

Scars and bars and a no-tell motel
Black and white cars, pulling over backseat bombshells
A jack knife operation, crying out loud
Walking in a deadman's shoes then take the next train
out

Step outside, get up off of your knees, American
beauty
Step outta line, baby you got to say please, American
beauty,
No place to run, get right back to where you started
from

Standing in the shadows, it happened way too fast
Two desperadoes, fighting in the broken glass
Push comes to shove in a California minute
Blood on the tracks, you never look back, she ain't
dead yet

Step outside, get up off of your knees, American
beauty
Get outta line, baby you got to say please, American
beauty,
No place to run, get right back to where you started
from

Scars and bars and a no-tell motel, ooh
Black and white cars, pulling over backseat bombshells
A different education, dollar everyday
Give them all a happy ending, send them on their way

Step outside, get up off of your knees, American
beauty
Get outta line, baby you got to say please, American
beauty,
Get outta line, get up off of your knees, American
beauty
No place to run, get right back to where you started
from
