You have me burnin' up
With your bad timing
One small moment
I'm lost in your love

I'm lost and innocent
Turn my head around
Your one liners
I can do without

Easy come, easy go
I can't back down baby
I should have let you know that

I would do anything for you
Anything for you
If I only had you by my side

I would do anything for you
Anything for you
So wave goodbye

Anything for you

One day comes
And I disappear
You'll get your independence
Free and clear

Ah, you got it in you
A chance to make it work
Your heart will keep on beating
And I'll still hurt

Easy come, easy go
Before we throw it away
Can't you hear me sayin', baby?

I would do anything for you
Anything for you
If I only had you by my side

I would do anything for you
Anything for you
If we say goodbye, I'll be waiting for you

(Solo)

Easy come, easy go
I can't back down now, baby...

I should've let you know that

I would do anything for you
Anything for you
If I only had you by my side

I would do anything for you
Anything for you
If you wave goodbye, I'll still be waiting

I would do anything for you (I'll do anything for you)
Anything for you
If I only had you by my side

Anything for you

So wave goodbye
Anything for you...
