Ooo little tricky mama
Yeah - you got alot to say
And the way you do that dance - aah
Gonna take my blues away

Oh babe
What you lookin for?

You got a - nasty reputation, now
Seems you been down before

Well if you want a love
That's gonna last more than a day
You better get up out your dancin shoes
And change your shifty ways

Like a weathervane turnin when the wind is right
You're gonna keep on spinnin till you see the light
I'll see you comin back for more tonight
It's any way the wind blows

You keep up the talkin but you're sight unseen
I gotta catch all your doubletalkin in between
One day you're gonna have to end your game
You're just any way the wind blows

Ooo little wayward woman
Yeah - Gonna waste all my time
You're tryin'a get that groove on
Think it make everything alright

Oh babe
Why you stalkin me?

You got a - nasty reputation, doll
Don't put your mojo on me!

Well if you want a love
That's gonna last more than a day
You better get up out your dancin shoes
And change your shifty ways

Like a weathervane turnin when the wind is right
You're gonna keep on spinnin till you see the light
I'll see you comin back for more tonight
It's any way the wind blows
You keep up the talkin' but you're sight unseen
I gotta catch all your doubletalkin in between
One day you're gonna have to end your game
You're just any way the wind blows

Oh babe
What you lookin for?

You got a - nasty reputation, now
