It was a dream, a dream I had on my mind
It was a dream, a dream I had on my mind
You know when I woke up this mornin' not a thing could
I find

You know I dreamed I went out with [Incomprehensible]
And I had a good time
Ah, it was so lovely, nothin' to worry my mind
It was a dream, a dream I had on my mind
Well, you know when I woke up this mornin' not a angel
could I find

Well, you know I dreamed I played policy and played
the horses too
I win so much money, I didn't know what to do
It was a dream, a dream I had on my mind
Well, you know when I woke up this mornin' not a penny
could I find

Well, you know I dreamed I was married and started a
family
I dreamed I had ten kids and they all looked like me
It was a dream, a dream I had on my mind
Well, you know I woke up this mornin' not a child could I
find
