Trouble on the way out
Trouble on the way back home
Trouble on the way out
Trouble on the way back home
Someone said they caught someone saying
Far away
Someone said they saw someone throw a brick
On the way out, on the way out
Someone said they saw someone saying
Far away
Someone said they saw someone take a fit
On the way out
Polish up the chrome
Polish up the chrome beams
Polish up the chrome
Polish up the chrome beams
Someone said they caught someone playing
Far away
Someone said they saw someone take a fit
On the way out, on the way out
Someone said they caught someone playing
Far away
Someone said they saw someone take a fit
On the way out
Trouble on the way out
Trouble on the way back home
