That girl used to never wanna give me no pussy
And I couldn't never ever figure out why
But now I came up with all this money
And now she shake her ass everytime I walk by

I couldn't help but to bend that ass over
bend that ass over (bend that ass over)
had to bend that ass over (bend that ass over)
yes I bend that ass over (bend that ass over)
had to bend that ass over (bend that ass over)

She used to tell me I could look but I better not touch it
Now she all on me cus im making that money
She take it like a fool
So I just played it cool
She steady moanin oooh
You put me in the mood
She seen a nigga lose
And didn't wanna move
So I pulled it closer
Had to bend that ass over

Head straight to the back of the stage
She said she remember my face, from way back in the
day
She could tell by my swag I had immaculate taste
That's when she dropped it on the floor, and put it
back in my face

That girl used to never wanna give me no pussy
And I couldn't never ever figure out why
But now I came up with all this money
And now she shake her ass everytime I walk by

I couldn't help but to bend that ass over
bend that ass over (bend that ass over)
had to bend that ass over (bend that ass over)
yes I bend that ass over (bend that ass over)
had to bend that ass over (bend that ass over)

She never looked dependant til the money came
Only had dreams of making it rain

Standing in the crowd, said what are you about
If you ain't talking dollars hit the exit route
Stressed out, fucked up
What a nigga gotta do to get that ass blocked
Gutta love, nah not me
So I'm going hard, and throwing my g's
I bend that ass over in the middle of the night
Now your paper looking right, give you whatever you
like
We talking DIP, spending with no time living in
Winter come trippin, yeah she still wanna give me
Cus a nigga pussy pimpin

That girl used to never wanna give me no pussy
And I couldn't never ever figure out why
But now I came up with all this money
And now she shake her ass everytime I walk by

I couldn't help but to bend that ass over
bend that ass over (bend that ass over)
had to bend that ass over (bend that ass over)
yes I bend that ass over (bend that ass over)
had to bend that ass over (bend that ass over)
